

WATER MANAGEMENT POLICY

CUPA-GROUP
Since 1892

Cupa Group in its leadership of environmental responsibility is committed to the sustainable and efficient management of water.

The United Nations sustainable development goal of Ensuring access to water, sustainable management of water and sanitation for all is a priority for the organization.

Considering that most of our activities take place in the natural environment, we are aware of the need to preserve the availability of this resource, maintaining its quality and ecological balance of water resources.

For that reason, Cupa Group promotes the following principles to ensure appropriate management of water as a consumer.

Principles

- Manage water appropriately, responsibly, efficiently and safely throughout the water cycle to promote the preservation of ecosystems and social development.
 - Ensure access to drinking water for all company employees.
 - Preserve the water resources in our facilities and the surrounding environment.
 - Encourage Cupa Group production centers to reduce the use and consumption of water and consequently discharge through campaigns to raise awareness of consumption and good performance for this resource.
 - Use water sources suitable for different uses appropriately, always maximizing whenever possible water reuse and recycling to ensure the sustainability of the water supply at our facilities and minimize consumption and the impact on the natural environment.
 - Promote the best technologies and practices to ensure good performance in water use.
 - Control the quality of collected and discharged water in compliance with current legislation, installing systems to retain contaminants from the most polluting processes.
 - Make our stakeholders aware of our water management policy.
 - Make our stakeholders aware of our water management policy.
-

- Reduce water consumption by 5% until 2025 in the production of slate products which is the main consumer of water.
- Periodically review the monitoring indicators linked to reduction targets.
